A WORD WITH THE LEGISLATURE.

In spite of the action of the Committee on General Laws yesterday we are not yet prepared to believe that the General Assembly will at this time pass the Bland-Sale Jamestown Exposition bill, giving to the city of Norfolk the exclusive right to hold an exposition in connection with the proposed Jamestown celebration. It is a long time to 1907, and hurry. A better plan than the Norfolk rules: plan may hereafter be presented, and if the members of the General Assembly have in view the interests of the whole State, it seems to us that they will wait until all plans shall have been submitted and then select that which promises the best general results. If after due consideration, and after all the several communities in interest shall have submitted plans, it shall then be decided that the Norfolk plan is the best, and that Norfolk is the best place for the exposition, Richmond will yield gracefully and will co-operate as far as she may be permitted with her friends in the Tidewater. But if the General Assembly shall take action before Richmond has had time to formulate a plan the people of Richmond cannot but feel that snap judgment has been taken upon them.

This is not said in any spirit of ill temper, but we do say that such hasty action on the part of the General Assembly will not tend to bring about that hearty co-operation about which so much has been said and which will be so necessary to the complete success of this great Virginia enterprise.

It is much more important that the State should be united when a place is chosen, than that any place should be chesen in haste. Proper deliberation will bring the best results.

CHINESE EXCLUSION.

Joaquin Miller contributes an interesting article to the current number of the North American Review on the "Chinese and the Exclusion Act." which contains some startling statements as coming from a man on the Pacific coast. In fine, it is that the real proprietors of the Pacific coast want the Chinese and the real working men de not object to them. He says that his work as a teacher, talker at teachers institutes, colleges, and so on, in the last four years has taken him into nearly every county in Washington, Oregon, California, Arizona, New Mexico, and Louisiana and he has nowhere heard one voice in favor of the Chinese Exclusion Act, but the contrary, at all times and places. He says that the "Ittle brown man" is honest and industrious and patient and willing to do the drudgery at a pitiful cost and that those who enjoy his services are pleased with him and want him to stay. He asserts that he can count letters by hundreds begging that this "brutal exclusion act"

be not perpetuated. have come in and from labor agitators. | helder of the bond pay taxes also, and to We do not deny anything that Mr. Mil- do so is to collect a double tax, the bars they would undoubtedly come here in immense numbers. absorbed and Americanized. this, the one is that the Chinese do not | not always soulless. intend to be absorbed and the other is that the Anglo-Saxon race will not amalgamate either with the brown race or the black race. We receive white men and white women of all races and Americanize them and marry and intermarry with them with the net product of more Americans, and sometimes better Americans. But we draw the line at negroes and Chinese. We have a negro prob-1em, which is giving us a great deal of trouble and if we should open our doors to China we should soon have a Chinese problem also. This is a white man's country and must remain so, no matter what view fanatics may take of it.

SUPPOSE.

The National Labor Tribune of Pitts burg, Pa., prints the following:

The Central Trades and Labor Union of St. Louis can rest assured of the support of labor organizations everywhere in the United States in its presentation of the following demands to the officials the Louisiana Purchase Exposition: Vorld's Fair shall be built by union

materials used shall be the product exclusively of union labor.

All printed matter of the World's Fair company shall bear the union label.

All privileges and concessions shall be
let under provision that only union labor be employed by the persons receiving

them.

A board of arbitration, to be composed of three members of the Central Trades and Labor Union and three members of the World's Fair Company, shall be applied to the World's Fair Company, shall be applied to the World's Fair Company. pointed to adjust any labor questions that may arise during the construction of the

The action is based on the course of the fficials in letting the contract to nonunion contractors. A national boycott The Springfield Republican, would be a serious thing for the Exposition proshown, big shows of this kind are li shown, bi gshows of this kind are likely to be financially unprofitable under the most favorable circumstances. The Remost lavorable circumstances. The Republican hits the nail right on the head. The Buffalo Exposition lost nearly \$4.000,000, although it was a fine display and labor was friendly. What the St. Louis Exposition would lose if its managers provoked a boycott can be imagined. All the managers need to do in order to keen the managers need to do in order to keep their losses down to a fair average is to be sensible.

Here is a great organization laying down hard and fast rules for a great enterprise. Suppose the great industrial corporations of the country, popularly there is no occasion whatever for this known as trusts, should lay down these

"The World's Fair shall be built by men

whom we shall designate." "All materials used shall be the product

exclusively of trust factories." "All printed matter in the World's Fair Company shall bear the trust label. "All privileges and concessions shall be let under provision that only trust labor

be employed by the persons receiving

Or suppose the laborers in St. Louis who do not belong to the Central Trades and Labor Union of that city, should meet and organize and adopt resolutions providing that:

"The World's Fair shall be built by nonunion mer.

"That all materials used shall be the product exclusively of non-union labor. "That all printed matter of the World's Fair Company shall bear the non-union

"That all privileges and concessions shall be let under provisions that only non-union labor be employed by the persons receiving them."

What would the union men of St. Louis and the union men of the country at large say to this? But why is it any more reasonable for the union men to take such action than for the industrial corporations or the non-union men to take such action? These are questions for all reasonable union men to consider.

THE "BLOATED BONDHOLDER."

A great deal is being said now about the effort to exempt the "bloated bondholder" from taxation. We are told that a bond is property and that the "bloated bondholder" should be made to pay his dues to the Government. Let us reflect first of all that all bondholders are not bloated. There are many widows and orphans in this country, who own bonds paying a low rate of interest, and if such owners are made to pay taxes on their holdings to the State and city government, in most cases the Government will take about half of the entire in-

Now that fact does not justify exemp-

tion. If a widow has a piece of property that does not bring a large income, it is her misfortune, but there is a reason why that class of property, so-called either in the hands of widows or millionaires, should not be taxed. Let us suppose that the bond in question is a railroad bond. A railroad corporation borrows money which is used in build-Indeed Mr. Miller says that since the ing and equipping its road. CURRENT TOPICS.

The Scotsman prints a table which depicts the Boer losses in the period between the end of May and the beginning of December of the present year. This table, which summarizes Kitchener's table, which summarizes Kitchener's dispatches, shows that in the period indicated the Boers lost 1,008 killed, 653 wounded and taken, 6,673 unwounded prisoners, 1,991 voluntary surrenders; total 10,307 put out of action in six months. At this rate the war is approaching an end though it is significant of the determined character of Boer patriotism that General Dewet is said to be now at the head of "900 taen. said to be now at the head of 2000 men. In fact, it seems, in view of the large forces still led lw Botha, Delarsy and others, that, as usually happens, the losses on the other side are exaggerated in the British reports, or the Boer population must have been vastly larger than anybody thought it was. How large the figures tend to become is illustrated in

the statement of the Cape Argus that since May the British have taken 128 359 cattle, 44,055 horses, 4,852 wagons, 592,526 rounds of ammunition and 4,127 rifles. Baltimore Sun.

There is far less hostility to Chinese immigration here now than there was in 1882, when the first exclusion act was passed, or than there was in 1892, when passed, or than there was the act was extended for another ten years. The Morey letter forgery of 1880, in which Garfield, the Republican candidate for President, was made to appear favorable to the Chinese inflow, turned California and Nevada against the Re-publicans that year and almost swung Oregon over to the Democratic side. The de-cline in the number of Chinese in the country in the past ten wears and their diffusion over a large area, which has reduced the pressure on the Pacific coast, has removed a little of the hostility toward them, but it is safe to say that the vote against the mainenance of the barriers against them will be very small in either branch of Congress .- St. Louis Globe-Democrat.

When a Bennington (Verment) editor started a newspaper he named it the Reformer. What I e meant that the publie should understand by this was that he was superior to the spirit of mer partisanship; but his real object was e able to sell his editorial opinions to the candidates of either party. When he brought suit recently for money which a candidate had agreed to pay to him for the editorial support of the Reformer the Judge was forced to throw the case out of court on the ground that the agreement was illegal and against public morals. It is rather a pixy, though, that the jury was not allowed o estimate the money value of the editorial support of such a newspaper. Not even the name of Reformer could blind the public to the dishonorable character of a newspaper which offers its opinions for sale, and it it probable that its indersement injured rather than helped the candidate.—Philadelphia

Sunday was a regular sportsman's day for shooting ducks, and the game hogs stood no show. A large number of hunters went out, and they all proved to be genuine sportsmen, and shot only about three ducks apiece. The fact that the fog was so dense that the ducks could not fly probably had something to do with it. It is not exactly known why ducks will not travel about in a fog but they will not, and it is supposed that they are afraid of collision. They get out in some wide piece of water and loaf there unseen and unseeing, and they feed at night when the fog and the sportsmen have gone away.—The Oregon

A Lunenburg Plan.

Editor of The Times: Sir,-Below I hand you an idea I heard suggested some m nths age by one of my countymen, which strikes me as the best thing I have seen upon that question, and upon which I would like to hear you comment, if you think it worthy of such.

1. Let the Constitutional Convention provide a capitation tax of one dollar or

twenty-one years old. 2. A law to require each male citizen over sixteen years old to work on the public roads a certain number of days per annum under suitable road overseer.

3. Require payment of capitation tax and work on public roads as a prerequis ite to the right to vote and to patronize the public schools. 4. Let the public school fund be derived

more per head for each male citizen over

from capitation tax. 5. Require payment of this tax each year during month of January, when no election is near at hand, and no cadidates

in field to pay taxes for votes. Those who lived up to a plan of this kind would merit their rights and privileges under it. let them be white or colored, and each individual would bear his just part of the burden. Those who fail ed to become a stockholder in the State government would be justly debarred

from having a vote in its affairs. The shiftless, objectionable vote would be distranchised; the road and school question settled, and Virginia's fair name unsuilled before God and mankind by the LEMENRIES. tet. LUNENBURG. Traffic, Va., Dec. 5, 1991.

S. A. L. PASSENGER OFFICE.

It Will Soon Be Moved to No. 1006 East Main Street.

The passenger office of the Seaboard Air Line Railway for Kichmond will be moved from its present location, near the corner of Main and Ninth, to No. 1995 East Main Street, the former office of the Richmond Traction Company and the Virginia Elec-trical Railway and Development Com-

pany.

The rooms at No. 1006 will be nicely The rooms at No. 1606 will be nicely furnished. The partitions and office fixtures that were used by the former occupants have already been removed, and the building is now ready to become the office home of Mr. Z. P. Smith, district passenger agent of the Seaboard, and his associates. Colonel Boykin has his office in the new depot, where he has beautiful quarters.

Mr. Smith will move into his new office between the first of the year and March, when the lease on the building at Ninth and Main expires.
